- React

PROFILE

I am a Java Software Developer fresher, developing, testing, and deploying web applications. I have a strong understanding of software engineering principles. My greatest accomplishment was creating a highly effective multi-threaded program to optimize the performance of a large scale application. I have excellent problem-solving skills, an eye for detail and the ability to learn and apply new technologies quickly. I am confident that I can be an asset to your organization and make significant contributions to your team.
